

FOR IMMEDIATE RELEASE

BAMBOO SCENES ONE YEAR ANNIVERSARY **Hong Kong Street Photography Exhibition** **VIP Preview + Anniversary Exhibition**

(Hong Kong, 15 November 2018) - What started as an idea to open up the local art scene in one of the most photogenic cities in the world, has now grown into a thriving community of photographers and art enthusiasts, with meaningful photo art prints on walls in Hong Kong and beyond. Bamboo Scenes Photography Gallery is turning one, and that is worth a celebration!

Bamboo Scenes offers unique, affordable Photography Art by Hong Kong based artists, showcasing their city in spectacular ways. With a strong focus on Hong Kong Street Photography and with the aim to offer meaningful art with a purpose, by donating 10% of profits to charity [ImpactHK](#) helping the homeless.

Founded by Dutch female entrepreneur Madelon de Grave, Bamboo Scenes launched last year with an exciting exhibition for over 500 visitors at Loft 22. With local and international press coverage reaching as far as CNN Travel - the new Hong Kong art initiative was immediately put onto the map.

Milestones

Commencing as an online photo art collective with pop-up exhibits around the city, *such as the 'Art Block Party' reaching nearly 2,000 interested visitors*, evolved into the opening of its very first Gallery space on 09/2018 with [Locofama](#). To date, it holds collections of 21 independent artists and recently introduced a new printing option; *Matte Aluminium Photo Panel*, as an alternative to *Framed Fine Art Photo Paper*. Started in one of the most photogenic cities, Bamboo Scenes Art has found a home into Hong Kong apartments, work- and leisure spaces. Not remaining within borders, the Hong Kong art prints reached international recognition - with destinations as Tokyo, Melbourne, Berlin, Stockholm, L.A. and more!
